JOHN SHARP IS REAPPOINTED

Is Promptly Confirmed by Senate.

Governor's Appointees for Sheep Commission Are Rejected.

Upper House Is Up With Its Work and Will Be Ready to Adjourn Thursday Night.

Gov. Cutter pleased the Senate yesterday by sending with a batch of appointments the name of John Sharp for Fish and Game Commissioner. Two weeks ago the Governor was prevailed on to turn Mr. Sharp down in order to carry out a trade made by his managers last fall at the State convention. He sent in the name of A. H. Moyes of Ogden and the appointment was personally and from the standpoint of qualifications so offensive to several Senators and to the public in general that the nomination failed of confirmation.

The Governor's second appointmentthe reappointment of Commissioner Sharp, was promptly confirmed by the Senate in executive session, as was the following: Trustees of the Agricultural college. Thomas Smart, Susa Young Taigs and Letitia Peery Richards; mem-ber State Board of Pharmacy, C. H. Mc-

The Senate declined to confirm the appointment of L. R. Anderson, J. S. Ostler and John E. Austin for State Sheep Commissioners. The objection was not based on personal grounds not to qualifications, but because the appointments were not considered distributed in a proper way. Another batch of appointments that were looked for yesterday are expected this afternoon.

Only Contest of the Day.

House bill No. 188, which provides for the establishing of a central Utah experi-ment station in Jush, Utah, Sait Lake, Davis, Weber or Box Elder counties, and making the southern Utah experiment farm at St. George a station under the direction of the Agricultural college, oc-cupied much time in the Senate yester-day.

cupled much time in the Senate yesterday.

The bill carried an appropriation of \$6,000 for the central station and \$6,000 for the St. George farm. These appropriations were attacked by Senator Lawrence and Senator Gardner, and were reduced to \$6,000 and \$6,000 respectively. Senator McKay defended the bill in a stirring speech, and he was seconded by Senator Bamberger. An attempt was made to defer action on the measure, but a motion to this effect failed. The bill was passed on a vote of 12 to 6.

Other bills passed by the Senate were Senate bills Nos. 131 and 132, relating to surety companies and bonds by corporations, and House bill No. 143, relating to reports of County Superintendents.

The Senate killed by adverse committee reports H. B. No. 200, relating to polling places, and S. B. No. 119, appropriating \$19,000 to creet a building in which to preserve historical and archeological relies. The calendar shows five new Senator Hollingsworth, as he explained, without hope of action on them, but to lead to an agitation that would prepare them for the next General Assembly. The other two were by Senator Lawrence and were referred to the Judiciary committee without reading. Action on them will be atreferred to the Judiciary committee with-out reading. Action on them will be at-tempted.

lowing Senate concurrent resolution, which provided:

That the Committee on Judiciary of the Senate of the Seventh Legislature of the State of Utah be, and is neredy requested to prepare and report with thirty days after the beginning of the next session of said body, an act amending article IV of the constitution of the State of Utah on electors and right of suffrage which may provide in substance.

1. For a property and educational qualification by all persons who hold office or it vote at any election.

2. For a residence in the State, county, precinct or municipality a reasonable length of time (but greater than provided).

provided)

2. For a system of registration, and prohibiting any person from being registered or from voting for a limited period, who, having once been duly registered, shail have failed or neglected to report to the judges of the last general election, prior to such registration.

4. For the general regulation of elections and restricting the use of money by either persons or corporations in aid of any candidate or party ticket.

The Senate cleared its docket and adjourned until 2 o'clock this afternoon, with instructions to the several committees to act promptly on all bills in their hands.

THE HOUSE

Eminent Domain Bill Is Killed After an Interesting Debate.

By a vote of 25 to 16 the Lawrence bill giving to towns and cities the right to condemn water for culinary and domestic purposes, was killed in the House yesterly afternoon. There were two reports on the measure. A majority of the Julelary committee, Kinney, Tolton, Mc-Crea and Johnson, advocated the passage of the bill. The minority report was signed by Marks. Wootton and Fishburn Mr. Marks made the motion to substitute the minority for the majority report

Gray-Haired Farmers.

Gray-Haired Farmers.

In support of his motion Mr. Marks frew a picture of the Salt Lake vailley desolated and the gray-haired farmers driven from the State by the consuming thirst of the city people who would selze the water that now makes the farms productive. The measure, he asserted. Was intended solely for Salt Lake, and was intended to afford a way for Salt Lake to get the Big Cottonwood water without enryping out the terms of the options taken last year.

Mr. Stockey spoke along the same lines lie intimated that the amelters were interested in securing the passage of the bill, because it would drive out the farmers and stop the agritation against the smoke nuisance. Mr. Kinney defended the measure. He sald it was not a Salt Lake bill, but would apply to every diy and town in the State. The bill, he explained makes ample provision for the

Round-shouldered Women Fels-Naptha cuts wash-day in

alf; backache too. Fels-Napth-

farmers and would guarantee them ample compensation for all water taken. It was only intended to reach those individuals who wanted to hold up the cities. Mr. Kinney said that the city would not give up its options because of this bill, because the options were more favorable than the terms that could be secured by condemnation.

As Good as City Folks.

Mr Panter, a Salt Lake county farmer, supported the minority report because, he said, the farmers needed good water for household purposes as bad as the city for household purposes as bad as the city people.

The exuberant fancy of Representative Joseph pictured the towns reaching out and grabbing the water used by the mines and rendering them valueless. Mr. Wilson advocated the majority report. He said that in his experience he had observed that the price put upon property in condemnation proceedings was usually more than the owner could realize in any other way. He mentioned several cases where men had secured a start in life by having their property condemned and purchased. Mr. Tolton said that there would be no danger of the capricious seizure of water under the proposed act because the necessity for the water had to be first shown. He thought it just and proper that those who needed water for cultinary purposes should have the first demand upon it. The vote to substitute the minority for the majority report was as follows.

Vote on the Bill.

Ayes-Allen, Christensen, Curtin, Dalley, Dean, Fishburn, Gundry, Hawley, Hone, Hopes, Joseph, Kuchler, Maughan, Marks, Merrill, Miller, Pace, Pancake, Panter, Peterson, Richards, Roberts, Simons, Stewart, Stookey, Thompson, Wootton-27,

Wootton—H.
Nays—Anderson, A. V.; Austin, Carroll,
Cottam, Cromar, Edward, Johnson, Jones,
Luther, Lyman, McCrea, Spencer, Stringham, Tolton, Wilson, Hull—16.
Mr. Kinney at first voted no, but
changed his vote to aye so that he would
be in a position to move a reconsideration.

Juvenile Courts Not Opposed.

There was no opposition whatever to the important bill by Mr. Marks establishing juvenile courts providing for the punishment of youthful delinquents withhout bringing them in contact with hardened criminals or branding them ascriminals. Mr. McCrea and Mr. Kinneyboth spoke in behalf of the bill. The juvenile courts exist in all the large cities of the East and Middle West, and have been found to be of great moral value.

have been found to be of great moral value.

For some reason Mr Joseph developed an antipathy to H. B. No. 268, requiring pawnbrokers and second-hand dealers to make daily reports of their purchases to the County Sheriff. After falling to have the enacting clause stricken out, he materially weakened the effect of the bill by amending it to provide only for weekly reports. In this form the bill passed H. B. No. 233, requiring banks in which public funds are deposited to be examined by the State Bank Examiner, also excited Joseph's wrath. It was favorably reported by the Committee on Public Funds. Joseph protested against the adoption of the report, saying that it was the old private bank bill in disguise. His objections were overruled by the House and the report was adopted. There is no doubt that this manifestly wise bill will go through the House, but there is a question as to whether it will be strangled by the private banking interests in the Senate.

Will Have to Hurry.

Will Have to Hurry.

Will Have to Hurry.

Members of the House have begun to realize that they will have to hurry in order to conclude the work of the session this week. The pay stops after tomorrow and even the most patriotic Legislators are not so fond of lawmaking that they want to do it for nothing. To expedite business a resolution was passed yesterday limiting all speeches to five minutes, prohibiting the giving of time by one member to another, and requiring questions to be asked on the time of the Speaker. The Speaker of the House was instructed to hold the watch on-every member and call him down when he threatened to exceed the limit.

Senate bills are to go direct to the calendar instead of to committees. The committees are getting their work well in hand and the sifting committee is helping to expedite business.

A Spirit of Levity.

A Spirit of Levity.

A Spirit of Levity.

One of the symptoms of the approaching dissolution of the House is the spirit of levity that marks the proceedings. Yesterday when a vote was taken some one protested that Mr. Kuchler's vote had been cast by another person, as Mr. Kuchler was not in his seat.

"That is all right," replied the Speaker, "Mr. Kuchler is in his usual place." It was then discovered that the gentleman from Weber was in the bay window, talking to some ladles.

Mr. Joseph was talking about giving the Senate bills precedence. He stopped and repeated the word, pronouncing it "precedence" "That is just like Joseph,"

"There is no need of making that motion, now," said the Speaker. "As soon
as you get ready to go we will excuse
you with pleasure."

The special committee to which was
referred the proposal for a commission to
meet a commission from Arlzona in regard to the Arizona strip submitted a resolution yesterday recommending that the
Governor be authorized to appoint a commission of two to meet the Arizona commissioners.

mission of two to meet the Arizona commissioners.

Mr. Kinney is beginning to grow restive over the delay of the Senate Committee on Judiciary in reporting H J R.
No. 1, to submit a constitutional amendment, doing away with the compulsortax on mortgages. The resolution passed
the House January 25 and was promptly
sent to the Senate. The committee has
had it for nearly six weeks and it is time
for the friends of the measure to inquire
whether it is lost, strayed or stolen.

Went to a Dance.

As there were some committee meetings last night and a considerable number of the Representatives wanted to go to a dance at American Fork, no evening session was held. The House will meet this morning at 10 o'clock

IS VANISHING

Position of Kuropalkin Desperate.

Gravest Danger Is From Japanese Left, Which Has Pushed Northward.

Kuroki Is Pressing Forward From the East, Forcing Czar's Men

ST. PETERSBURG, March 7 .- All hope that Gen. Kuropatkin will be able to turn defeat into victory is apidly vanishing. The position of the Russian army has

been growing increasingly desperate during the last twenty-four hours.

The gravest danger is from the Japanese left, which has been pushed northward on the Sinmintin road to a point eight miles northwest of Mukden, where it has joined a flanking column from the west around the village of Tatche-klao, which is located at this point.

Battle Rages Fiercely.

The battle raged with terrible bitterness throughout yesterday with all the reserves hurried to the scene to block the stroke at the Russian line of com-

Baron Kaulbars, who is defending this wing, is only able to hold his own. On account of the desperate situation there Gen. Kuropatkin has not attempted to drive home his counter-stroke at the Japanese center and his offensive, which was abortive, has been abandoned.

At the same time encouraged by the progress of the main turning movement west, Gen. Kuroki again pressed for-ward from the east yesterday against Gen. Linevitch, forcing the Russians to give ground.

Order Given to Retreat.

It is rumored that Kuropatkin has al-ready given the order to retreat, and that he is gradually withdrawing forces from the center, but experts are in-clined to believe that he has waited too long, that he must fight it out in his present position, and that it is impossi-ble to extricate more than the remnants of his army.

At the War office it is said that the Japanese slege guns from Port Arthur, with a range of eight miles, are caus-ing terrible punishment. Nothing can stand up against them.

Awful Hail of Missiles.

The only news received at the War office up to this hour is that the battle was resumed at daylight this morning at Tatchekiao. During the night both sides brought up additional guns and at daybreak a perfect hall of artillery projectiles filled the air.

If the Japanese crush Gen. Kaulbars today the Russian retreat will be cut off and Kuropatkin's army will be almost surrounded. There is the greatest fear that telegraphic communication may be cut at any moment.

Russian Public Pessimistic.

The public is pessimistic, as usual. The Liberals, especially, look forward to the complete defeat of Kuropatkin's army with equanimity, on the theory that a Russian victory would stiffen the backbone of the reactionaries According to the Liberal view the more the Government is embarrassed the more it will be obliged to yield.

To Abandon Mukden.

TOKIO, March 7.-It is reported that the Russians are preparing to abandon Muk. den and Fushun and to retreat to Tie

SANTO DOMINGO TREATY.

Senate Decides That It Should Be Reported Soon as Possible.

WASHINGTON, March 7 -Without determining any question of policy in regard to the Santo Domingo treaty, the Senate decided today that the treaty should be reported as soon as possible from the Committee on Foreign Relations, and the entire question fought out in executive session. This was the sentiment of the Foreign Relations committee, as well as the entire Senate, and in two sessions of the committee the proceedings were with a view to reporting the treaty tomorrow if possible.

The amendments offered in the commit-

The amendments offered in the committee were confined to a reduction of an
alleged surplusage of words. They were
effered verbally and taken down by a
stenographer. They are to be printed
and considered when the committee meets
tomorrow. By a tacit understanding the
policy involved in the treaty was not
taken up by the committee, and it was
inderstood that the action in submitting
amendments in this manner did not commit any Senator to supeprt the treaty.
The programme was merely to facilitate
action and remove all chance of its being
made a party question in the committee.
The prompt action of the Foreign Relations committee undoubtedly will result
in a much earlier decision in the Senate.
Nearly every Senator who discussed the
treaty today expressed a desire that the
measure be kept from becoming a party
question.
To prevent this Senator Bacon offered

measure be kept from teconing a party question.

To prevent this Senator Eacon offered to withdraw his resolution concerning the protocol of an agreement entered into be-tween the United States in January, 1863, in reference to the Santo Domingo Imin reference to the Santo Domingo im-provement company's claim and modify it. When he again offers it the resolution will be general in character and ask that the Foreign Relations committee inquire and report whether the executive had the authority to make an agreement by which the United States take charge of the cus-toms of another country.

toms of another country.
While most of the debate today related to the Bacon resolution, there was an incidental exchange of views among the Senators concerning the treaty and the effect of the intervention of the United States in the affairs of the Dominican Government, including the right of the United States to collect debts due to American citizens. On the latter point there was substantial agreement, but there was a wide divergence of opinion as to the method.

SPOKANE, Wash., March 7.—Herman A. Mero, assistant electrician in the Spokane fire department, fell forty-five feet from a water tank yesterday and suffered injuries from which he died soon after reaching the hospital.

LIVING TOO HASTILY AMERICANWOMEN BREAK DOWN

Irregularities and Female Derange-ments Result - Cured by Lydia E. Pinkham's Vegetable Compound.

Owing to our mode and manner of living, and the nervous haste of every woman to accomplish just so much each day, it is said that there is not

one woman in twenty-five but what suffers with some derangement of the female organism, and this is the secret

of so many unhappy homes. No woman can be amiable, light-hearted and happy, a joy to her hus-band and children, and perform the duties incumbent upon her, when she is suffering with backache headache, nervousness, sleeplessness, bearing, down pains, displacement of the womb,

spinal weakness or ovarian troubles. Irritability and snappy retorts take the place of pleasantness, and all sunshine is driven out of the home, and lives are wrecked by woman's great

enemy—womb trouble. Read this letter:

Dear Mrs. Pinkham: Dear Mrs. Pinkham:—
"I was troubled for eight years with irregu-larities which broke down my health and brought on extreme nervousness and despon-dency. Lydia E. Pinkham's Vegetable Compound proved to be the only medicine which helped me. Day by day I improved in health while taking it until I was entirely cured. I can attend to my social and household duties and thoroughly enjoy life once more, as Lydia E. Pinkham's Vegetable Compound has made me a well woman, without an ache or a pain." -Mrs. Chester Curry, 42 Saratoga Street, East Boston, Mass.

At the first indication of ill health, painful or irregular menstruation, pain in the side, headache, backache, bearing-down pains, nervousness or "the blues," secure at once a bottle of Lydia E. Pinkham's Vegetable Com-pound and begin its use.

STRIKE AT SOSNOV.CE.

There Is No Cessation in the Labor War.

WARSAW, March 7.-The strike in Sosnovice continues in full force. The Sa-turn coal mine, owned by the richest ompany in the district, is the only mine working, the men having received an acrease of wages such as the owners of

Increase of wages such as the owners of other properties say they are unable to concede to their operatives.

This city is comparatively quiet, there being only eccasional cases of assaults in which individuals or policemen have been shot. Several persons were severely wounded in outlying sections of the city Monday night
